Racial Profiling and Use of Force

Chief of Police Howard E. Williams

Racial Profiling

Definition

- **“A law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.”**

Article 3.05 , Texas Code of Criminal Procedure

Racial Profiling Enforcement Ratios

Race/Ethnicity	Census Data Ratio	Fair Roads Ratio	Collision Data Ratio
White	1.11	0.95	1.02
Hispanic	0.88	1.09	0.99
African-American	0.85	1.25	1.04
Asian-American	0.51	0.63	0.48

Racial Profiling Stops

- “Results indicate that there is no racial profiling by the SMPD in stopping minorities (African-Americans, Hispanics, and others). In fact, ethnic minorities were stopped disproportionately less than White population. ”

– Dr. Hassan Tajalli

Racial Profiling Searches

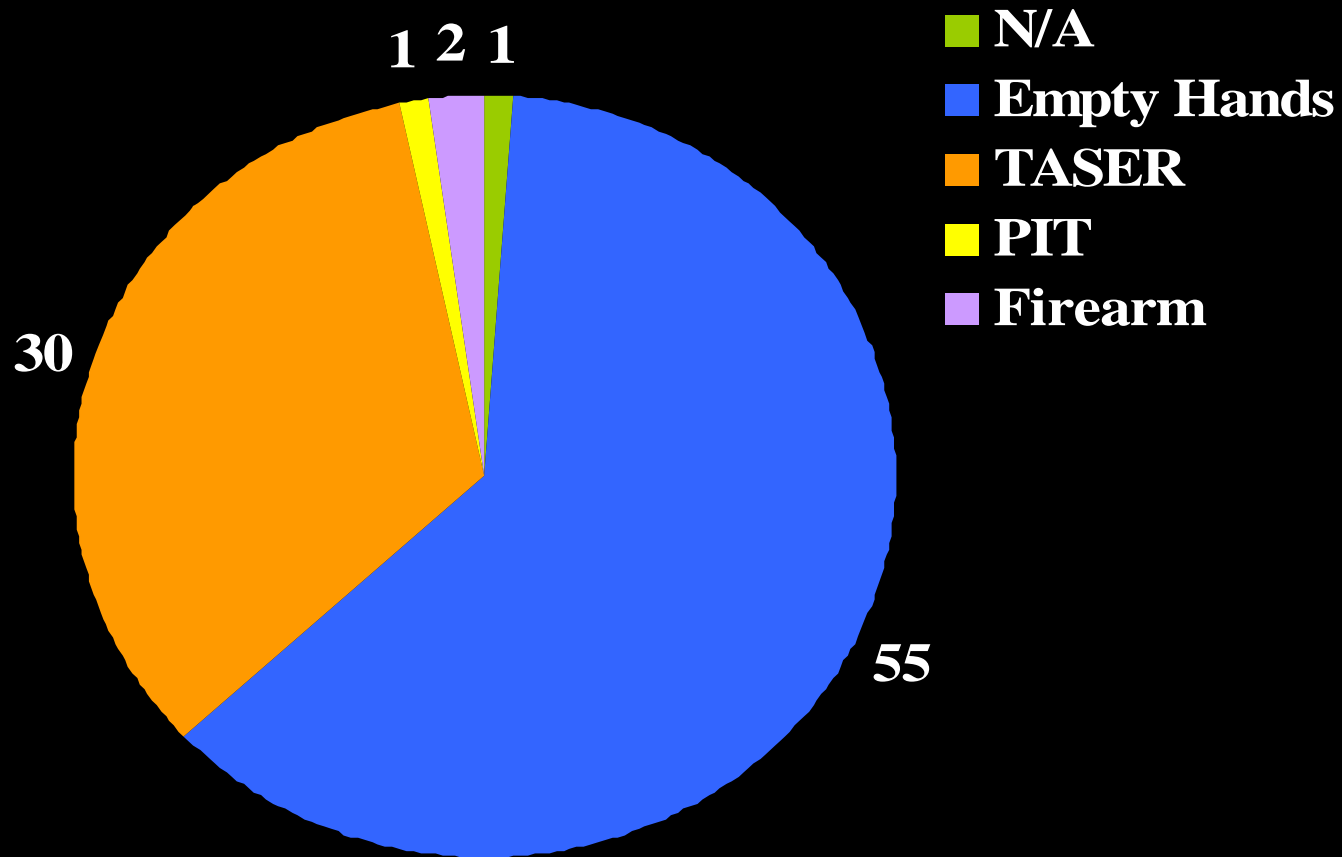

- “Results indicate that there is no racial profiling in the stopped searches that were conducted by SMPD.”
- Charges brought against African Americans is significantly less than what was expected. On the other hand, Hispanics were charged more than what was expected.”

– Dr. Hassan Tajalli

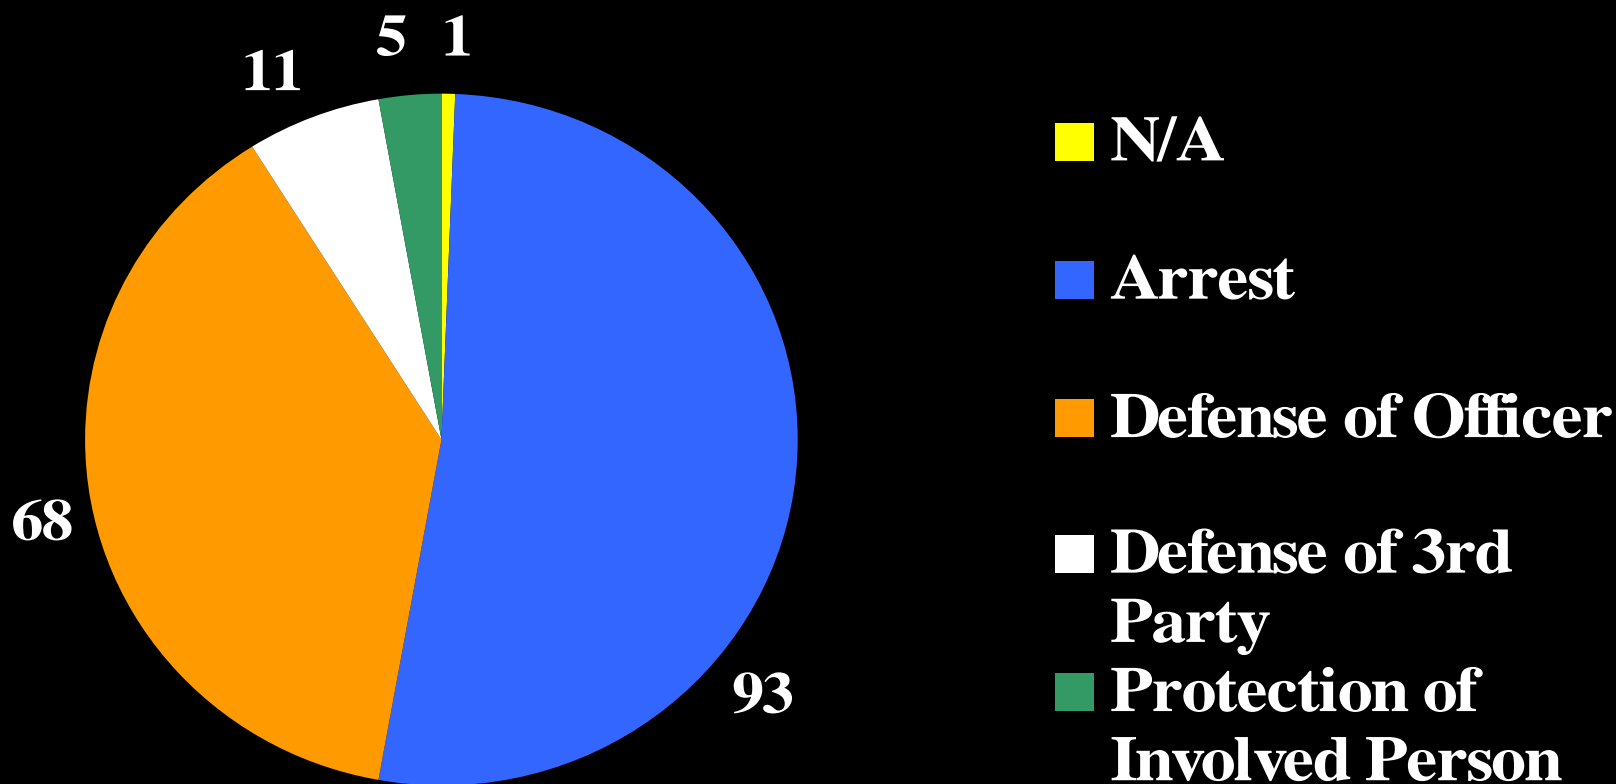

Use of Force
